

COPYGUARD™

Make every copy count.

Copyguard CG250

The easily operated CG250 can report both the number and the cost of copies. Reports may be printed with the companion CG Print II printer.

■ Applications

The **CG250** is suitable for budgetary cost control and expense recovery in smaller single copier offices, schools and institutions where printed copy usage reports via the **CG Print II** printer are required.

■ User friendly keyboard

The **CG250** provides secure, simple to operate numeric keyboard access control.

■ Copy costs

A copy cost may be programmed into the unit and copy costs as well as copy volume may be reported.

■ Printed reports

Reports may be read from the screen or printed with the companion **CG Print II** printer.

The **CG 250** has two report options that allow the printing of either the complete list of codes or only those codes with a recorded count.

■ Open access

The **CG250** may be set to operate in Auto-Entry mode for applications where code validation is not required.

■ Code lengths

Codes may be from 1 to 6 digits long.

PIN Access

Features

- Secure supervisor key controlled entry and deletion of codes
- Keyboard lock
- LCD display: The display may be set into concealed mode for extra security
- Battery backup
- Power source: Normal mains power
